There may be occasional situations when schools are closed due to emergencies such as inclement weather. On those days, in order to accommodate enrolled school-age children needing care due to the unscheduled school closing, the facility shall be permitted to exceed for the day its licensed capacity by one-third (1/3). This one-third (1/3) excess attendance for emergency school closing shall not be in addition to the one-third (1/3) excess allowed for overlap care, so that at no time may the total number in care be more than one-third (1/3) over the licensed capacity.

DATE	REASON SCHOOL CLOSED	TOTAL NUMBER OF EMERGENCY SCHOOL CLOSING CHILDREN
